

## **Law Disciplines - Jesus Gives Life**

### **Galatians 3:19-29**

1. Identify the words Paul used to describe “law” and what words he used to describe the alternative to law. What does that tell you about Paul’s theology vs. that of his opponents?
2. Sometimes we get caught up in big theological conversations on scriptural things to the point we miss the meaning or purpose. What should we understand to be the practical implications of baptism as taught in this text?
3. Give examples of how we are sometimes reluctant to embrace the way baptism should affect our relationships with other Christians and explain why you think that is still true today?
4. It seems people most often use the terms faith and belief more than trust when speaking of our relationship with God. How might the word “trust” be a better word for our world today?
