

Spirit Or Flesh
Galatians 5:2-26

1. Religious ritual has an important place in church life. However, what always trumps religious ritual? Describe where the modern church has placed religious ritual above what is more important and tell how that affected you and others you know.

2. Tell how the modern church has or could so move away from religious ritual that it becomes harmful to the community of faith.

3. How can a claim of embracing “freedom in Christ” lead to an unspiritual life?

4. What did Paul’s opponents (and many people today) believe was the answer to an unethical and immoral life? Why does this view not work?

5. What is God’s answer to the weakness of the flesh that leads to the sins Paul described in this text? Why is it so hard for people to put their trust in the right place?
